Ronald Reagan left behind a legacy that America will never forget. Now, in this one-of-a-kind collection of his most intimate thoughts, his favorite quotations by others, and his own most collectible jokes, all culled from a newly disclosed set of personal notecards he kept throughout his life and career, fans and admirers of the fortieth president will find a unique window of insight into the soul of an American icon. Edited by Douglas Brinkley, editor of #1 New York Times bestseller The Reagan Diaries, this indispensable Reagan retrospective is perfect for fathers, graduates, and anyone looking to find inspiration in the thoughts and musings of a great American leader.

**President Reagan** - Lou Cannon - 2008-08-04

Hailed by the New Yorker as "a superlative study of a president and his presidency," Lou Cannon's President Reagan remains the definitive account of our most significant presidency in the last fifty years. Ronald Wilson Reagan, the first actor to be elected president, turned in the performance of a lifetime. But that performance concealed the complexities of the man, baffling most who came in contact with him. Who was the man behind the makeup? Only Lou Cannon, who covered Reagan through his political career, can tell us. The keenest Reagan-watcher of them all, he has been the only author to reveal the nature of a man both shrewd and oblivious. Based on hundreds of interviews with the president, the First Lady, and hundreds of the administration's major figures, President Reagan takes us behind the scenes of the Oval Office. Cannon leads us through all of Reagan's roles, from the affable cowboy to the self-styled family man; from the politician who denounced big government to the president who created the largest peace-time deficit; from the statesman who reviled the Soviet government to the Great Communicator who helped end the cold war.

**How Ronald Reagan Changed My Life** - Peter Robinson - 2009-10-13

As a young speechwriter in the Reagan White House, Peter Robinson was responsible for the celebrated "Mr. Gorbachev, tear down this wall" speech. He was also one of a core group of writers who became informal experts on Reagan -- watching his every move, absorbing not just his political positions, but his personality, manner, and the way he carried himself. In How Ronald Reagan Changed My Life, Robinson draws on journal entries from his days at the White House, as well as interviews with those who knew the president best, to reveal ten life lessons he learned from the fortieth president -- a great yet ordinary man who touched the individuals around him as surely as he did his millions of admirers around the world.
White House officials frantically trying to determine whether the country was under attack. Most especially, we encounter the man code-named "Rawhide," a leader of uncommon grace who inspired affection and awe in everyone who worked with him. Ronald Reagan was the only serving U.S. president to survive being shot in an assassination attempt.* Rawhide Down is the first true record of the day and events that literally shaped Reagan's presidency and sealed his image in the modern American political firmament. *There have been many assassination attempts on U.S. presidents, four of which were successful: Abraham Lincoln, James A. Garfield, William McKinley, and John F. Kennedy. President Theodore Roosevelt was injured in an assassination attempt after leaving office.

The Essential Ronald Reagan - Lee Edwards - 2005
A fascinating new biography of Ronald Reagan offers the first comprehensive political portrait of the man, chronicling the various moves he made politically to gain power, first in California and then as president of the U.S.

Rawhide Down - Del Quentin Wilber - 2011-03-15
A Washington Post Notable Nonfiction Book for 2011 A Richmond Times Dispatch Top Book for 2011 A minute-by-minute account of the attempted assassination of Ronald Reagan, to coincide with the thirtieth anniversary On March 30, 1981, President Ronald Reagan was just seventy days into his first term of office when John Hinckley Jr. opened fire outside the Washington Hilton Hotel, wounding the president, press secretary James Brady, a Secret Service agent, and a D.C. police officer. For years, few people knew the truth about how close the president came to dying, and no one has ever written a detailed narrative of that harrowing day. Now, drawing on exclusive new interviews and never-before-seen documents, photos, and videos, Del Quentin Wilber tells the electrifying story of a moment when the nation faced a terrifying crisis that it had experienced less than twenty years before, the assassination of President John F. Kennedy. With cinematic clarity, we see Secret Service agent Jerry Parr, whose fast reflexes saved the president's life; the brilliant surgeons who operated on Reagan as he was losing half his blood; and the small group of White House officials frantically trying to determine whether the country was under attack. Most especially, we encounter the man code-named "Rawhide," a leader of uncommon grace who inspired affection and awe in everyone who worked with him. Ronald Reagan was the only serving U.S. president to survive being shot in an assassination attempt.* Rawhide Down is the first true record of the day and events that literally shaped Reagan's presidency and sealed his image in the modern American political
"In this ambitious work, David Byrne analyzes the ideas that informed presidents, four of which were successful: Abraham Lincoln, James A. Garfield, William McKinley, and John F. Kennedy. President Theodore Roosevelt was injured in an assassination attempt after leaving office.

Letters from the Desk of Ronald Reagan - Ralph E. Weber - 2010-03-24
Ronald Reagan, one of America’s most beloved presidents, is now gone. But his voice lives on in this stirring and very personal collection of letters written during his presidency to his fellow Americans, showing us a new and surprisingly intimate side of our fortieth president. During even the busiest times in his presidency, Ronald Reagan took time out to respond to dozens of letters each week from the many friends and private citizens who wrote to him about their concerns. These letters, collected in the president’s “Handwriting File,” have never been examined by historians. Now Ralph E. Weber and his son, Ralph A. Weber, have culled the best of this collection, arranged chronologically to track the course of political events during the eight years of his presidency. A fascinating glimpse at the issues facing the United States during the 1980s, Letters from the Desk of Ronald Reagan traces history in the making.

Ronald Reagan - David T. Byrne - 2018-11
Ronald Reagan's political philosophy and policies. Rather than appraising his personal and emotional life, Byrne's intellectual biography goes one step further; it establishes a rationale for the former president's motives, discussing how thinkers such as Plato and Adam Smith influenced him. Byrne points to three historical forces that shaped Reagan's political philosophy: Christian values, particularly the concept of a universal kingdom of God; America's firm belief in freedom as the greatest political value and its aversion to strong centralized governments; and the appeasement era of World War II, which stimulated Reagan's aggressive and confrontational foreign policy. Byrne's account of the fortieth president augments previous work on Reagan with a new model for understanding him. Byrne shows how Reagan took conservatism and the Republican Party in a new direction, departing from the traditional conservatism of Edmund Burke and Russell Kirk. His desire to spread a "Kingdom of Freedom" both at home and abroad changed America's political landscape forever and inspired a new conservatism that persists to this day. "--

The Heart of a Great Nation - Ronald Reagan - 2020-10-06
With a foreword from Senator Marco Rubio, a stirring collection of Ronald Reagan's most inspiring speeches, offering his timeless wisdom and guidance for our day. In his 1989 farewell address, Ronald Reagan said, "I wasn't a great communicator, but I communicated great things, and they didn't spring full bloom from my brow, they came from the heart of a great nation--from our experience, our wisdom, and our beliefs in principles that have guided us for two centuries." The Heart of a Great Nation brings together Reagan's most powerful speeches, as relevant to our chaotic world as they were when he first gave them. In a period of our country's history consumed by economic stagnation, national instability, and the looming threat of communism, Reagan spoke directly to the hearts of everyday Americans. His wisdom on matters of family, freedom, and nationhood helped guide the country back to its founding principles and ushered in an era of prosperity and national pride. Today, as we find our country treading similar ground, Reagan's wisdom speaks to us once again, offering guidance to everyone looking to navigate the present and remember the legacy of this great nation--which can one day be reclaimed.

When Character Was King - Peggy Noonan - 2002-10-01
The author shares her unique insight into Ronald Reagan, arguing that his character and courage made him the object of reverence and respect in America.

An American Life - Ronald Reagan - 1990-11-15
Ronald Reagan's autobiography is a work of major historical importance. Here, in his own words, is the story of his life—public and private—told in a book both frank and compellingly readable. Few presidents have accomplished more, or been so effective in changing the direction of government in ways that are both fundamental and lasting, than Ronald Reagan. Certainly no president has more dramatically raised the American spirit, or done so much to restore national strength and self-confidence. Here, then, is a truly American success story—a great and inspiring one. From modest beginnings as the son of a shoe salesman in Tampico, Illinois, Ronald Reagan achieved first a distinguished career in Hollywood and then, as governor of California and as president of the most powerful nation in the world, a career of public service unique in our history. Ronald Reagan's account of that rise is told here with all the uncompromising candor, modesty, and wit that made him perhaps the most able communicator ever to occupy the White House, and also with the sense of drama of a gifted natural storyteller. He tells us, with warmth and pride, of his early years and of the elements that made him, in later life, a leader of such stubborn integrity, courage, and clear-minded optimism. Reading the account of this childhood, we understand how his parents, struggling to make ends meet despite family problems and the rigors of the Depression, shaped his belief in the virtues of American life—the need to help others, the desire to get ahead and to get things done, the deep trust in the basic goodness, values,
From modest beginnings as the son of a shoe salesman in Tampico, Illinois, Ronald Reagan achieved first a distinguished career in Hollywood and then, as governor of California and as president of the most powerful nation in the world, a career of public service unique in our history. Ronald Reagan’s account of that rise is told here with all the uncompromising candor, modesty, and wit that made him perhaps the most able communicator ever to occupy the White House, and also with the sense of drama of a gifted natural storyteller. He tells us, with warmth and pride, of his early years and of the elements that made him, in later life, a leader of such stubborn integrity, courage, and clear-minded optimism. Reading the account of this childhood, we understand how his parents, struggling to make ends meet despite family problems and the rigors of the Depression, shaped his belief in the virtues of American life—the need to help others, the desire to get ahead and to get things done, the deep trust in the basic goodness, values, and sense of justice of the American people—virtues that few presidents have expressed more eloquently than Ronald Reagan. With absolute authority and a keen eye for the details and the anecdotes that humanize history, Ronald Reagan takes the reader behind the scenes of his extraordinary career, from his first political experiences as president of the Screen Actors Guild (including his first meeting with a beautiful young actress who was later to become Nancy Reagan) to such high points of his presidency as the November 1985 Geneva meeting with Mikhail Gorbachev, during which Reagan invited the Soviet leader outside for a breath of fresh air and then took him off for a walk and a man-to-man chat, without aides, that set the course for arms reduction and charted the end of the Cold War. Here he reveals what went on behind his decision to enter politics and run for the governorship of California, the speech nominating Barry Goldwater that first made Reagan a national political figure, his race for the presidency, his relations with the members of his own cabinet, and his frustrations with Congress. He gives us the details of the great themes and dramatic crises of his eight years in office, from Lebanon to Grenada, from the struggle to achieve arms control to tax reform, from Iran-Contra to the visits abroad that did so much to reestablish the United States in the eyes of the world as a friendly and peaceful power. His narrative is full of insights, from the unseen dangers of Gorbachev’s first visit to the United States to Reagan’s own personal correspondence with major foreign leaders, as well as his innermost feelings about life in the White House, the assassination attempt, his family—and the enduring love between himself and Mrs. Reagan. An American Life is a warm, richly detailed, and deeply human book, a brilliant self-portrait, a significant work of history.

An American Life - Ronald Reagan - 1990-11-15

Ronald Reagan’s autobiography is a work of major historical importance. Here, in his own words, is the story of his life—public and private—told in a book both frank and compellingly readable. Few presidents have accomplished more, or been so effective in changing the direction of government in ways that are both fundamental and lasting, than Ronald Reagan. Certainly no president has more dramatically raised the American spirit, or done so much to restore national strength and self-confidence. Here, then, is a truly American success story—a great and inspiring one.
A NEW YORK TIMES NOTABLE BOOK OF 2020 From the bestselling author
of Nixonland and The Invisible Bridge comes the dramatic conclusion of how
conservatism took control of American political power. Over two decades,
Rick Perlstein has published three definitive works about the emerging
dominance of conservatism in modern American politics. With the saga’s
final installment, he has delivered yet another stunning literary and
historical achievement. In late 1976, Ronald Reagan was dismissed as a
man without a political future: defeated in his nomination bid against a
sitting president of his own party, blamed for President Gerald Ford’s
defeat, too old to make another run. His comeback was fueled by an
extraordinary confluence: fundamentalist preachers and former
segregationists reinventing themselves as militant crusaders against gay
rights and feminism; business executives uniting against regulation in an
era of economic decline; a cadre of secretive “New Right” organizers
deploying state-of-the-art technology, bending political norms to the
breaking point—and Reagan’s own unbending optimism, his ability to
convey unshakable confidence in America as the world’s “shining city on a
hill.” Meanwhile, a civil war broke out in the Democratic party. When
President Jimmy Carter called Americans to a new ethic of austerity,
Senator Ted Kennedy reacted with horror, challenging him for reelection.
Carter’s Oval Office tenure was further imperiled by the Iranian hostage
crisis, the Soviet invasion of Afghanistan, near-catastrophe at a
Pennsylvania nuclear plant, aviation accidents, serial killers on the loose,
and endless gas lines. Backed by a reenergized conservative Republican
base, Reagan ran on the campaign slogan “Make America Great
Again”—and prevailed. Reaganland is the story of how that happened,
tracing conservatives’ cutthroat strategies to gain power and explaining
why they endure four decades later.

The Greatest Communicator - Richard Wirthlin - 2004-09-07
Provides a look into the life and politics of Ronald Reagan, offering a look at
the milestones in his political career and a more personal side of the great
communicator.

Dutch - Edmund Morris - 2011-10-19
This book, the only biography ever authorized by a sitting President--yet
written with complete interpretive freedom--is as revolutionary in method as
it is formidable in scholarship. When Ronald Reagan moved into the White
House in 1981, one of his first literary guests was Edmund Morris, the
Pulitzer Prize-winning biographer of Theodore Roosevelt. Morris developed
a fascination for the genial yet inscrutable President and, after Reagan's
landslide reelection in 1984, put aside the second volume of his life of
Roosevelt to become an observing eye and ear at the White House. During
thirteen years of obsessive archival research and interviews with Reagan
and his family, friends, admirers and enemies (the book's enormous
dramatis personae includes such varied characters as Mikhail Gorbachev,
Michelangelo Antonioni, Elie Wiesel, Mario Savio, François Mitterrand,
Grant Wood, and Zippy the Pinhead), Morris lived what amounted to a
doppelgänger life, studying the young "Dutch," the middle-aged "Ronnie,"
and the septuagenarian Chief Executive with a closeness and dispassion,
not to mention alternations of amusement, horror, and amazed respect,
unmatched by any other presidential biographer. This almost Boswellian
closeness led to a unique literary method whereby, in the earlier chapters of
Dutch: A Memoir of Ronald Reagan, Morris's biographical mind becomes in
effect another character in the narrative, recording long-ago events with the
the author later describes the great dramas of Reagan's presidency, and the
tragedy of a noble life now darkened by dementia. "I quite understand," the
author has remarked, "that readers will have to adjust, at first, to what
amounts to a new biographical style. But the revelations of this style, which
derive directly from Ronald Reagan's own way of looking at his life, are I
think rewarding enough to convince them that one of the most interesting
characters in recent American history looms here like a colossus."
Ronald Reagan—as ideological opposites. FDR is hailed as the champion of big-government progressivism manifested in the New Deal. Reagan is seen as the crusader for conservatism dedicated to small government and free markets. But Henry Olsen argues that this assumption is wrong. In Ronald Reagan: New Deal Republican, Olsen contends that the historical record clearly shows that Franklin Roosevelt and the New Deal itself were more conservative than either Democrats or Republicans believe, and that Ronald Reagan was more progressive than most contemporary Republicans understand. Olsen cuts through political mythology to set the record straight, revealing how Reagan—a longtime Democrat until FDR’s successors lost his vision in the 1960s—saw himself as FDR’s natural heir, carrying forward the basic promises of the New Deal: that every American deserves comfort, dignity, and respect provided they work to the best of their ability. Olsen corrects faulty assumptions driving today’s politics. Conservative Republican political victories over the last thirty years have not been a rejection of the New Deal’s promises, he demonstrates, but rather a representation of the electorate’s desire for their success—which Americans see as fulfilling the vision of the nation’s founding. For the good of all citizens and the GOP, he implores Republicans to once again become a party of “FDR Conservatives”—to rediscover and support the basic elements of FDR (and Reagan’s) vision.

A Time for Choosing - Ronald Reagan - 1983
Speeches explore a variety of political and social issues, including tax reform, the conservative movement, nuclear disarmament, and the growth of government

Last Act - Craig Shirley - 2015-10-13
His name in American politics is more cited than any other president. Both the Republican and Democratic parties are radically different today, mainly
century president shaped the American political landscape so profoundly. Craig Shirley’s Last Act is the important final chapter in the life of Reagan that no one has thus far covered. It’s the kind of book that widens our understanding of American history and of the presidency and the men who occupied it. To tell Reagan’s story, Craig has secured the complete, exclusive, and enthusiastic support of the Reagan Foundation and Library and spent considerable time there reviewing sealed files and confidential information. Cast in a grand and compelling narrative style, Last Act contains interesting and heretofore untold anecdotes about Reagan, Mrs. Reagan, their pleasure at retirement, the onslaught of the awful Alzheimer’s and how he and Mrs. Reagan dealt with the diagnosis, the slow demise, the extensive plans for a state funeral, the outpouring from the nation, which stunned the political establishment, the Reagan legacy, and how his shadow looms more and more over the Republican Party, Washington, the culture of America, and the world.

**Last Act** - Craig Shirley - 2015-10-13
His name in American politics is more cited than any other president. Both the Republican and Democratic parties are radically different today, mainly as a result of Ronald Reagan and the force of his ideas. No twentieth century president shaped the American political landscape so profoundly. Craig Shirley’s Last Act is the important final chapter in the life of Reagan that no one has thus far covered. It’s the kind of book that widens our understanding of American history and of the presidency and the men who occupied it. To tell Reagan’s story, Craig has secured the complete, exclusive, and enthusiastic support of the Reagan Foundation and Library and spent considerable time there reviewing sealed files and confidential information. **The Seven Fat Years** - Robert L. Bartley - 1992
An editor of The Wall Street Journal reassesses the policies of Reaganomics and contends that they were not simple exercises in greed and excess, but strategies that can be used again to enable the United States to prosper.

**The Seven Fat Years** - Robert L. Bartley - 1992
An editor of The Wall Street Journal reassesses the policies of Reaganomics and contends that they were not simple exercises in greed and excess, but strategies that can be used again to enable the United States to prosper.

From master storyteller and New York Times bestselling Historian H. W. Brands comes the definitive biography of a visionary and transformative president In his magisterial new biography, H. W. Brands brilliantly establishes Ronald Reagan as one of the two great presidents of the twentieth century, a true peer to Franklin Roosevelt. Reagan conveys with sweep and vigor how the confident force of Reagan's personality and the unwavering nature of his beliefs enabled him to engineer a conservative revolution in American politics and play a crucial role in ending communism in the Soviet Union. Reagan shut down the age of liberalism, Brands shows, and ushered in the age of Reagan, whose defining principles are still powerfully felt today. Employing archival sources not available to previous biographers and drawing on dozens of interviews with surviving members of Reagan's administration, Brands has crafted a richly detailed and fascinating narrative of the presidential years. He offers new insights into Reagan's remote management style and fractious West Wing staff, his deft handling of public sentiment to transform the tax code, and his deeply misunderstood relationship with Soviet leader Mikhail Gorbachev, on which nothing less than the fate of the world turned. Reagan is a storytelling triumph, an irresistible portrait of an underestimated politician whose pragmatic leadership and steadfast vision transformed the nation.

The author of Rise of the Vulcans presents a controversial analysis of the fortieth president's role in ending the cold war, in a provocative report that challenges popular beliefs, reveals lesser-known aspects of the Reagan administration's foreign policy, and cites the contributions of such figures as Nixon, Kissinger, and Gorbachev.

The Rebellion of Ronald Reagan - Jim Mann - 2009
The author of Rise of the Vulcans presents a controversial analysis of the fortieth president's role in ending the cold war, in a provocative report that challenges popular beliefs, reveals lesser-known aspects of the Reagan administration's foreign policy, and cites the contributions of such figures as Nixon, Kissinger, and Gorbachev.

Reagan - Bob Spitz - 2019-10-01
From New York Times bestselling biographer Bob Spitz, a rich biography of an epic American life, capturing what made Ronald Reagan so beloved and so transformational. More than five years in the making, based on hundreds of interviews and access to previously unavailable documents, and infused with irresistible storytelling charm, Bob Spitz's Reagan stands fair to be the first truly post-partisan biography of our fortieth president, and thus a balm for our own bitterly divided times. It is the quintessential American triumph, brought to life with cinematic vividness: A young man is born into poverty and raised in a series of flyspeck towns in the Midwest by a pious mother and a largely absent father. Severely nearsighted, the boy lives in his own world and finds his first brush with popularity as a young lifeguard. Thanks to the example of his first love, he makes the extraordinary leap to go to college, a modest school by national standards, but an audacious presumption in the context of his family's station. From there, the path is only dimly lit, but it leads him to a solid career as a radio sportscaster, and then, astonishingly, fatefuly, to Hollywood. And the rest, as they say, is history. Bob Spitz's Reagan is a richly detailed chronicle of the full arc of Ronald Reagan's epic life--giving full weight to the Hollywood years, his transition to politics and his rocky but ultimately successful run as California governor. His iconic presidency, from Iran-Contra to "Tear down this wall!" to an assassination attempt, receives a balanced reckoning in the
Livy shows that the vigor to face down adversaries must ultimately come from pride in our own past achievements. “Never mind if they call your caution timidity, your wisdom sloth, your generosity weakness,” he writes. “It is better that a wise enemy should fear you than that foolish friends should praise.” “Men often oppose a thing merely because they have no agency in planning it,” Alexander Hamilton says, “or because it may have been planned by those whom they dislike.” Replete with maxims, warnings, examples from history, and shrewd recommendations, Warrior Politics wrests from the past the lessons we need to arm ourselves for the present. It offers an invaluable template for any decision-maker—in foreign policy or in business—faced with high stakes and inadequate knowledge of a mine-filled terrain. As we gear ourselves up for a new kind of war, no book is more prescient, more shrewd, or more essential.

**Warrior Politics** - Robert D. Kaplan - 2011-11-16

“The side that knows when to fight and when not will take the victory. There are roadways not to be traveled, armies not to be attacked, walled cities not to be assaulted.” —Sun-Tzu We live in dangerous times, when a new kind of leadership is required. Visionary and ruthlessly strategic, Warrior Politics extracts the best of the wisdom of the ages for modern leaders who are faced with the complex life-and-death challenges of today’s world—and determined to win. Sun-Tzu urges leaders to “plan and calculate like a hungry man.” Machiavelli defines a policy not by its excellence but by its outcome. Churchill derives his greatness from his imagination of history. Livy shows that the vigor to face down adversaries must ultimately come from pride in our own past achievements. “Never mind if they call your caution timidity, your wisdom sloth, your generosity weakness,” he writes. “It is better that a wise enemy should fear you than that foolish friends should praise.” “Men often oppose a thing merely because they have no agency in planning it,” Alexander Hamilton says, “or because it may have been planned by those whom they dislike.” Replete with maxims, warnings, examples from history, and shrewd recommendations, Warrior Politics wrests from the past the lessons we need to arm ourselves for the present. It offers an invaluable template for any decision-maker—in foreign policy or in business—faced with high stakes and inadequate knowledge of a mine-filled terrain. As we gear ourselves up for a new kind of war, no book is more prescient, more shrewd, or more essential.

**Reagan** - Bob Spitz - 2019-10-01

From New York Times bestselling biographer Bob Spitz, a rich biography of an epic American life, capturing what made Ronald Reagan so beloved and so transformational. More than five years in the making, based on hundreds of interviews and access to previously unavailable documents, and infused with irresistible storytelling charm, Bob Spitz’s Reagan stands fair to be the first truly post-partisan biography of our fortieth president, and thus a balm for our own bitterly divided times. It is the quintessential American triumph, brought to life with cinematic vividness: A young man is born into poverty and raised in a series of flyspeck towns in the Midwest by a pious mother and a largely absent father. Severely nearsighted, the boy lives in his own world and finds his first brush with popularity as a young lifeguard. Thanks to the example of his first love, he makes the extraordinary leap to go to college, a modest school by national standards, but an audacious presumption in the context of his family’s station. From there, the path is only dimly lit, but it leads him to a solid career as a radio sportscaster, and then, astonishingly, fatefully, to Hollywood. And the rest, as they say, is history. Bob Spitz’s Reagan is a richly detailed chronicle of the full arc of Ronald Reagan’s epic life—giving full weight to the Hollywood years, his transition to politics and his rocky but ultimately successful run as California governor. His iconic presidency, from Iran-Contra to "Tear down this wall!" to an assassination attempt, receives a balanced reckoning in the form of an absorbing, even revelatory narrative.
In this sweepingly ambitious volume, the nation’s foremost experts on the American presidency and the U.S. Constitution join together to tell the intertwined stories of how each American president has confronted and shaped the Constitution. Each occupant of the office—the first president to the forty-fourth—has contributed to the story of the Constitution through the decisions he made and the actions he took as the nation’s chief executive. By examining presidential history through the lens of constitutional conflicts and challenges, The Presidents and the Constitution offers a fresh perspective on how the Constitution has evolved in the hands of individual presidents. It delves into key moments in American history, from Washington’s early battles with Congress to the advent of the national security presidency under George W. Bush and Barack Obama, to reveal the dramatic historical forces that drove these presidents to action. Historians and legal experts, including Richard Ellis, Gary Hart, Stanley Kutler and Kenneth Starr, bring the Constitution to life, and show how the awesome powers of the American presidency have been shaped by the men who were granted them. The book brings to the fore the overarching constitutional themes that span this country’s history and ties together presidencies in a way never before accomplished. Exhaustively researched and compellingly presented, The Presidents and the Constitution shines new light on America’s brilliant constitutional and presidential history.

Way Out There in the Blue - Frances FitzGerald - 2001-02-21
Way Out There in the Blue is a major work of history by the Pulitzer Prize-winning author of Fire in the Lake. Using the Star Wars missile defense program as a magnifying glass on his presidency, Frances FitzGerald gives us a wholly original portrait of Ronald Reagan, the most puzzling president of the last half of the twentieth century. Reagan’s presidency and the man himself have always been difficult to fathom. His influence was enormous, and the few powerful ideas he espoused remain with us still -- yet he seemed nothing more than a charming, simple-minded, inattentive actor. FitzGerald shows us a Reagan far more complex than the man we thought we knew. A master of the American language and of self-presentation, the greatest storyteller ever to occupy the Oval Office, Reagan created a compelling public persona that bore little relationship to himself. The real Ronald Reagan -- the Reagan who emerges from FitzGerald's book -- was a gifted politician with a deep understanding of the American national psyche and at the same time an executive almost totally disengaged from the policies of his administration and from the people who surrounded him. The idea that America should have an impregnable shield against nuclear weapons was Reagan's invention. His famous Star Wars speech, in which he promised us such a shield and called upon scientists to produce it, gave rise to the Strategic Defense Initiative. Reagan used his sure understanding of American mythology, history and politics to persuade the country that a perfect defense against Soviet nuclear weapons would be possible, even though the technology did not exist and was not remotely feasible. His idea from Washington’s early battles with Congress to the advent of the national security presidency under George W. Bush and Barack Obama, to reveal the dramatic historical forces that drove these presidents to action. Historians and legal experts, including Richard Ellis, Gary Hart, Stanley Kutler and Kenneth Starr, bring the Constitution to life, and show how the awesome powers of the American presidency have been shaped by the men who were granted them. Exhaustively researched and compellingly presented, The Presidents and the Constitution shines new light on America’s brilliant constitutional and presidential history.
policies of his administration and from the people who surrounded him. The
in U.S.-Soviet relations at a crucial juncture in the Cold War, and in a
different form it survives to this day. Drawing on prodigious research,
including interviews with the participants, FitzGerald offers new insights
into American foreign policy in the Reagan era. She gives us revealing
portraits of major players in Reagan’s administration, including George
Shultz, Caspar Weinberger, Donald Regan and Paul Nitze, and she provides
a radically new view of what happened at the Reagan-Gorbachev summits in
Geneva, Reykjavik, Washington and Moscow. FitzGerald describes the fierce
battles among Reagan’s advisers and the frightening increase of Cold War
tensions during Reagan’s first term. She shows how the president who
presided over the greatest peacetime military buildup came to espouse the
elimination of nuclear weapons, and how the man who insisted that the
Soviet Union was an “evil empire” came to embrace the Soviet leader,
Mikhail Gorbachev, and to proclaim an end to the Cold War long before
most in Washington understood that it had ended. Way Out There in the
Blue is a ground-breaking history of the American side of the end of the
Cold War. Both appalling and funny, it is a black comedy in which Reagan,
playing the role he wrote for himself, is the hero.

Way Out There In the Blue - Frances FitzGerald - 2001-02-21

playing the role he wrote for himself, is the hero.

The Primetime Presidency of Ronald Reagan - Robert E. Denton (Jr.) -
1988
Denton examines the mediazation of the U.S. presidency, as exemplified by
President Reagan. Specifically, he analyzes the use of television as an
instrument of image-making and governing, the role of the media in
contemporary politics, the impact of television on presidential politics, and
the future of the presidency in the age of television.
how, in promising the impossible, Johnson and Reagan jointly dismantled 1988

Landslide - Jonathan Darman - 2015-07-07
In politics, the man who takes the highest spot after a landslide is not standing on solid ground. In this riveting work of narrative nonfiction, Jonathan Darman tells the story of two giants of American politics, Lyndon Johnson and Ronald Reagan, and shows how, from 1963 to 1966, these two men—the same age, and driven by the same heroic ambitions—changed American politics forever. The liberal and the conservative. The deal-making arm twister and the cool communicator. The Texas rancher and the Hollywood star. Opposites in politics and style, Johnson and Reagan shared a defining impulse: to set forth a grand story of America, a story in which he could be the hero. In the tumultuous days after the Kennedy assassination, Johnson and Reagan each, in turn, seized the chance to offer the country a new vision for the future. Bringing to life their vivid personalities and the anxious mood of America in a radically transformative time, Darman shows the long American tradition of consensus politics and ushered in a new era of fracture. History comes to life in Darman’s vivid, fly-on-the-wall storytelling. Even as Johnson publicly revels in his triumphs, we see him grow obsessed with dark forces he believes are out to destroy him, while his wife, Lady Bird, urges her husband to put aside his paranoia and see the world as it really is. And as the war in Vietnam threatens to overtake his presidency, we witness Johnson desperately struggling to compensate with ever more extravagant promises for his Great Society. On the other side of the country, Ronald Reagan, a fading actor years removed from his Hollywood glory, gradually turns toward a new career in California politics. We watch him delivering speeches to crowds who are desperate for a new leader. And we see him wielding his well-honed instinct for timing, waiting for Johnson’s majestic promises to prove empty before he steps back into the spotlight, on his long journey toward the presidency. From Johnson’s election in 1964, the greatest popular-vote landslide in American history, to the pivotal 1966 midterms, when Reagan burst forth onto the national stage, Landslide brings alive a country transformed—by riots, protests, the rise of television, the shattering of consensus—and the two towering personalities whose choices in those moments would reverberate through the country for decades to come. Praise for Landslide “Richly detailed . . . Landslide is a vivid retelling of a tumultuous three years in American history, and Mr. Darman captures in full the personalities and motives of two of the twentieth century’s most consequential politicians.”—The New York Times “Novel and even surprising . . . Landslide deftly reminds readers that Johnson and Reagan both trafficked in grandiose oratory and promoted utopian visions at odds with the social complexity of modern America.”—The Washington Post “Riveting . . . Darman portrays [Johnson and Reagan] as polar opposites of political attraction. . . . Animated by the artful insight that they were men of disappointment headed toward an appointment with history . . . A tale about myths and a nation that believed them, about a world of a half century ago now gone forever.”—The Boston Globe “Alert to the subtleties of politics and political history, Darman, a former correspondent for Newsweek, nimbly explores delusion and self-delusion at the highest levels.”—The New York Times Book Review

An Extraordinary Time · Marc Levinson · 2016-11-08
The decades after World War II were a golden age across much of the world. It was a time of economic miracles, an era when steady jobs were easy to find and families could see their living standards improving year after year. And then, around 1973, the good times vanished. The world economy slumped badly, then settled into the slow, erratic growth that had been the norm before the war. The result was an era of anxiety, uncertainty, and political extremism that we are still grappling with today. In An Extraordinary Time, acclaimed economic historian Marc Levinson describes how the end of the postwar boom reverberated throughout the global economy, bringing energy shortages, financial crises, soaring unemployment, and a gnawing sense of insecurity. Politicians, suddenly unable to deliver the prosperity of years past, railed haplessly against currency speculators, oil sheikhs, and other forces they could not control. From Sweden to Southern California, citizens grew suspicious of their newly ineffective governments and rebelled against the high taxes needed to support social welfare programs enacted when coffers were flush. Almost everywhere, the pendulum swung to the right, bringing politicians like Margaret Thatcher and Ronald Reagan to power. But their promise that deregulation, privatization, lower tax rates, and smaller government would restore economic security and robust growth proved unfounded. Although the guiding hand of the state could no longer deliver the steady economic
with a renewed optimism, which was personified by an enduring American equally unable to do so. The golden age would not come back again. A sweeping reappraisal of the last sixty years of world history, An Extraordinary Time forces us to come to terms with how little control we actually have over the economy.

God and Ronald Reagan - Paul Kengor - 2009-03-17
Ronald Reagan is hailed today for a presidency that restored optimism to America, engendered years of economic prosperity, and helped bring about the fall of the Soviet Union. Yet until now little attention has been paid to the role Reagan's personal spirituality played in his political career, shaping his ideas, bolstering his resolve, and ultimately compelling him to confront the brutal -- and, not coincidentally, atheistic -- Soviet empire. In this groundbreaking book, political historian Paul Kengor draws upon Reagan's legacy of speeches and correspondence, and the memories of those who knew him well, to reveal a man whose Christian faith remained deep and consistent throughout his more than six decades in public life. Raised in the Disciples of Christ Church by a devout mother with a passionate missionary streak, Reagan embraced the church after reading a Christian novel at the age of eleven. A devoted Sunday-school teacher, he absorbed the church's model of "practical Christianity" and strived to achieve it in every stage of his life. But it was in his lifelong battle against communism -- first in Hollywood, then on the political stage -- that Reagan's Christian beliefs had their most profound effect. Appalled by the religious repression and state-mandated atheism of Bolshevik Marxism, Reagan felt called by a sense of personal mission to confront the USSR. Inspired by influences as diverse as C.S. Lewis, Whittaker Chambers, and Aleksandr Solzhenitsyn, he waged an openly spiritual campaign against communism, insisting that religious freedom was the bedrock of personal liberty. "The source of our strength in the quest for human freedom is not material, but spiritual," he said in his
Evil Empire address. "And because it knows no limitation, it must terrify and ultimately triumph over those who would enslave their fellow man." From a church classroom in 1920s Dixon, Illinois, to his triumphant mission to Moscow in 1988, Ronald Reagan was both political leader and spiritual crusader. God and Ronald Reagan deepens immeasurably our understanding of how these twin missions shaped his presidency -- and changed the world.

**God and Ronald Reagan** - Paul Kengor - 2009-03-17

Ronald Reagan is hailed today for a presidency that restored optimism to America, engendered years of economic prosperity, and helped bring about the fall of the Soviet Union. Yet until now little attention has been paid to the role Reagan's personal spirituality played in his political career, shaping his ideas, bolstering his resolve, and ultimately compelling him to confront the brutal -- and, not coincidentally, atheistic -- Soviet empire. In this groundbreaking book, political historian Paul Kengor draws upon Reagan's legacy of speeches and correspondence, and the memories of those who knew him well, to reveal a man whose Christian faith remained deep and consistent throughout his more than six decades in public life. Raised in the Disciples of Christ Church by a devout mother with a passionate missionary streak, Reagan embraced the church after reading a Christian novel at the age of eleven. A devoted Sunday-school teacher, he absorbed the church's model of "practical Christianity" and strived to achieve it in every stage of his life. But it was in his lifelong battle against communism -- first in Hollywood, then on the political stage -- that Reagan's Christian beliefs had their most profound effect. Appalled by the religious repression and state-mandated atheism of Bolshevik Marxism, Reagan felt called by a sense of personal mission to confront the USSR. Inspired by influences as diverse as C.S. Lewis, Whittaker Chambers, and Aleksandr Solzhenitsyn, he waged an openly spiritual campaign against communism, insisting that religious freedom was the bedrock of personal liberty. "The source of our strength in the quest for human freedom is not material, but spiritual," he said in his Evil Empire address. From a church classroom in 1920s Dixon, Illinois, to his triumphant mission to Moscow in 1988, Ronald Reagan was both political leader and spiritual understanding of how these twin missions shaped his presidency -- and changed the world.

**The Brink** - Marc Ambinder - 2019-07-30

"An informative and often enthralling book...in the appealing style of Tom Clancy" (Kirkus Reviews) about the 1983 war game that triggered a tense, brittle period of nuclear brinkmanship between the United States and the former Soviet Union. What happened in 1983 to make the Soviet Union so afraid of a potential nuclear strike from the United States that they sent mobile ICBMs (intercontinental ballistic missiles) into the field, placing them on a three-minute alert Marc Ambinder explains the anxious period between the United States and the Soviet Union from 1982 to 1984, with the "Able Archer '83" war game at the center of the tension. With astonishing and clarifying new details, he recounts the scary series of the close encounters that tested the limits of ordinary humans and powerful leaders alike. Ambinder provides a comprehensive and chilling account of the nuclear command and control process, from intelligence warnings to the composition of the nuclear codes themselves. And he affords glimpses into the secret world of a preemptive electronic attack that scared the Soviet Union into action. Ambinder's account reads like a thriller, recounting the spy-versus-spy games that kept both countries—and the world—in check. From geopolitics in Moscow and Washington, to sweat-caked soldiers fighting in the trenches of the Cold War, to high-stakes war games across NATO and the Warsaw Pact, "Ambinder's account of a serious threat of global annihilation...is spellbinding...a masterpiece of recent history" (Publishers Weekly, starred review). The Brink serves as the definitive intelligence, nuclear, and national security history of one of the most precarious times in recent memory and “shows the consequences of nuclear buildups, sometimes-careless language, and nervous leaders. Now, more than ever, those consequences matter” (USA TODAY).
Ronald Reagan - - 2001
Chronicles the former president's life from his birth in Illinois, through his time in Hollywood, his marriage to Nancy Davis, and his days as governor of California, to the dedication of the Ronald Reagan Presidential Library.

What Reagan Couldn’t Tell Us - Lawrence Nesbitt - 2011-12-22
Many of Ronald Reagan's ways were not only unusual, but seem to contradict his others. Some authors are so perplexed by his nature they are reluctant to even assign intelligence to his mentality. They suspect he operated on everything from instinct to hunches to gut feelings and guesses. Lawrence Nesbitt's six years of extensive research has revealed a single psychological key that makes sense of the anomalies and contradictions. He has uncovered a powerful and nearly unique mindset that directed almost all of Reagan's conduct then and causes the confusion now. This unusual belief also explains how a man so old and riddled with flaws could accomplish so much and leave the presidency with an approval rating of nearly 70%, the highest of any two-term president in United States history. Nesbitt shows the controlling role this mindset played in Reagan's youth, in his years as a Hollywood actor, during his tenure as California governor, through his two terms as president, and even later. What Reagan Couldn't Tell Us offers a previously untold analysis of Reagan, one that will encourage discussion for years to come. I found Lawrence Nesbitt's explanation of what made Ronald Reagan tick very plausible, fascinating, and enlightening. His revolutionary conclusions about the former president seem well-founded on solid evidence. He gives us a new Reagan to appreciate. James D. Mallory, MD, author, former psychiatric director of Atlanta Counseling Center, and medical director of RAPHA
encourage discussion for years to come. I found Lawrence Nesbitt's explanation of what made Ronald Reagan tick very plausible, fascinating, and enlightening. In this new work, Edward Yager examines Ronald Reagan's political development from New Deal liberal to conservative Republican. Yager argues that Reagan's presidency cannot be fully understood and evaluated beliefs that he formed during his journey from Democrat to Republican.

**Ordinary Light** - Tracy K. Smith - 2015
"A memoir about the author's coming of age as she grapples with her identity as an artist, her family's racial history, and her mother's death from cancer"--
