Food security for Africa: an urgent global challenge
Apr 19, 2012 - In 2012, food insecurity is still a major global concern as 1.1 billion people are suffering from starvation, under-, and malnutrition, and the Food and Agriculture Organization of the United Nations (FAO) has concluded that we are still far from reaching millennium development goal (MDG) number 1: to halve extreme poverty and hunger by 2015. In Sub-Saharan Africa, the number of people suffering from extreme poverty and hunger has increased by 25%. The challenge of providing food security for Africa is one of the greatest challenges facing the world today.

Food security between human and wildlife: the nature, causes and solutions

Prayercast | Ethiopia
As the oldest independent nation in Africa and one of the oldest in the world, Ethiopia has developed a rich and distinct cultural heritage. Unlike many African nations, Ethiopia has never been colonized, though it was briefly occupied by Italy. Landlocked since Eritrea became independent in 1993, Ethiopia, officially the federal democratic republic of Ethiopia, is a landlocked country in the Horn of Africa. It shares borders with Eritrea and Djibouti to the north, Somaliland to the northeast, Somalia to the east, Kenya to the south, South Sudan to the west and Sudan to the northwest. Ethiopia has a total area of 1,100,000 square kilometers (425,949 sq mi) and over 117 million inhabitants. Jan 09, 2015 - Ethiopia a history of ethiopia is discussed: From prehistory to the Axumite kingdom;...is of great antiquity in Ethiopia is indicated by the hunter remains, a group of skeletal fragments found in the lower Awash river valley. The bone fragments, thought to be 3.4 to 3.0 million years old, belong to Australopithecus australus, an ape-like creature that may have been an.

Ethiopia - Soils | Britannica
Ethiopia - Soil: Soils. The soils of Ethiopia can be classified into five principal types. The first type is composed of eutric nitosols and andosols and is found on portions of the Western and Eastern Highlands. These soils are formed from volcanic material and, with proper management, have medium to high potential for rain-fed agriculture.

Ethiopia - Economy | Britannica
The economy of Ethiopia is a mixed and transition economy with a large public sector. The government of Ethiopia is in the process of privatizing many of the state-owned businesses and moving toward a market economy.
